

Vocabulary - Warmer

Cut up this worksheet below so that you have 16 pieces of paper. Depending on the group you could ask teams to work to find the correct combinations, or give one piece of paper to each teacher and ask them to find their 'partner' who has their matching word.

Note these might not be easy collocations: at the end of the exercise highlight the fact that learning new words or new collocations of words you already know is not easy. How would the teachers try to remember these?
