

Learner autonomy - Player Interviews

Player Interviews is a video series on the Premier Skills English website:

<http://premierkillsenglish.britishcouncil.org/players/player-interviews>

Part 1. Answer these general questions about the Player Interviews.

1. How many videos are there?
2. Which players are involved?
3. What activities connected to these videos can learners do on the site?
4. How do you know if the answers are correct?
5. What can teachers download with each video?
6. What level do you think this is good for?

Part 2. Your trainer will give you a video to watch in pairs. Your task is to create a short English exercise related to this video: you decide what the exercise is, you decide what the goals are! The only constraint is that it should take no more than 5-10 minutes.

After you have created your exercise, another pair will attempt it.

Part 3. How could you use this series with your learners in ways that could encourage learner autonomy? Think about the five strategies we discussed:

- Reflective activities
- Learner training
- Project-based learning
- E-learning tools
- Learner generated materials

Once you have some ideas, change partners and share.
